

My name is Julie Rivers and I am the Special Needs Co-ordinator (SENCo) here at Whitley Park Primary and Nursery School.

I am a fully qualified teacher who enjoyed many years teaching in Early Years and Key Stage 1, before taking the decision to pursue my interest in special educational needs. I also completed the Government's SENCo accreditation qualification in 2011.

We have an open door policy in school and welcome discussions about your thoughts on the provision offered for our pupils with special educational needs and disabilities. I'm always available in the mornings during meet and greet time if you want to pass on information about your child or just want a quick chat about your child and I am also available for longer appointments which can be made through the school office or email.

It is my passion to ensure that children with special educational needs or disabilities achieve their full potential in all areas of the curriculum and your child's happiness and achievement is of great importance to me. I look forward to meeting you. To find out more have a look at my one page profile, as these profiles are something that we are now putting in place for all of our children with special educational needs or disabilities.
